

Best Practice-1

Title: Development of E-content

Objective: To provide our knowledge and understanding to students of not only our but the students of all the colleges.

Context: During Covid-19 it was needed to reach our students online. Our Government colleges are situated generally in rural areas and students belong to economically poor section. So they do not afford higher internet bandwidth for online classes. Development of e-content is more suitable to reach out such students.

The Practice: Each and every Faculty member prepare e content and uploaded it on the digital library created by U.P. Higher Education. These e-content can be easily searched by the students and downloaded.

Evidence of Success: 469 E-contents developed by the faculty members and uploaded on Digital Library. Now every student of Uttar Pradesh can search content either by concerned subject or by concerned faculty name.

6. Problems encountered and resources required:

As the institution is situated in rural area, all the students are not much familiar to the use of digital library. To popularize these e content, students awareness workshop for importance of digital library is required.

Best Practice-2

Title: Strengthening of Science Department with Central Govt. Fund

Objective: To provide more practical knowledge and Hands on training to the Science students.

Context: K.N. Govt. PG College is one of the biggest Government college of U.P. where every year about 600 students take admission. The fund received by State Govt. is not sufficient to strengthen the laboratories with respect to the student number. So it is required that apply for other central funding agencies.

The Practice: The four Science Department Botany, Chemistry, Physics and Zoology of college has applied for DBT Star College Scheme and received it in the year 2020-21. Under this Scheme 82 lakh rupees was sanctioned and as first year grant 54 lakh rupees was received. This grant not only help in strengthening of 4 science laboratories but also a no. of outreach activities were also organized.

Evidence of Success: With this grant new instruments were purchased that helped in introducing new practical to students. Various minor research projects given to the students helped in their orientation towards research. Students were taken for visit to reputed institute that opens new vistas of science for them. Students are now trained in various practical work.

6. Problems encountered and resources required:

When we received this grant Covid -19 pandemic prevails that hamper the more practical work in laboratories. Also lack of lab assistance is constraint in maintenance of equipments. Filling of lab assistance post is required for smooth running of laboratories.
