Best Practice-1

Title: Procurement of central and state government fund

Objective: To strengthen institute by procurement of central and state government fund

Context: As the college is located in rural area and is only government college of area that provide education upto Ph.D, the enrollment number is high. Being a state government college, the fund received for the science laboratories are not sufficient and to provide experiential learning equipment procurement is necessary.

The Practice: The Science department always look for the central grant fund opportunity besides state government fund to strengthen laboratories. Four science departments Botany, Zoology, Physics Chemistry firstly received DBT Star College scheme from Department of Biotechnology under which 67 lakh rupees were granted for strengthening of science laboratories for undergraduate. Further five science departments Botany, Zoology, Physics Chemistry and Mathematics received DST-FIST scheme from Department of Science and Technology under which 1.17 lakh rupees was granted to strengthen science laboratories for post graduate and research students.

Evidence of Success: Under DBT Star College scheme, multiple number of equipments were purchased for undergraduate science students that enable hands on training sessions. The laboratories strengthened under this scheme serves also for other school and college students located in this area.

Under DST-FIST Scheme, the equipments required for postgraduate and research were sanctioned by Department of Science and Technology. This scheme also enable the institute for industry linkage as well as provide grant to carry out social responsibility activities.

Best Practice-2

Title: Imbibing the culture of Innovation and Entrepreneurship through Institute Innovation Council

Objective: To create an awareness of Innovation and Entrepreneurship culture. Context: K.N. Govt. PG College is one of the biggest Government college of U.P. where every year about 6000 students take admission. 90 percent of them belong to rural area and have hub of innovative ideas. As these students experiences lack of resources, to overcome these situations they have alternative innovative ideas. To channelize their idea, college has established Institute Innovation Council in 2018 under the guidance of Innovation cell of Ministry of Education, India.

The Practice: With the beginning of this council, a no. of awareness programme related with the innovation and entrepreneurship were organized. Students and faculty members were motivated to be part of these programmes. With every passing year, this council become more strengthened. During the sessions, they learn how to think critically, how to identify right problem with its right solution, business model canvas and how to file IPR. Every year IIC organizes a field visit for students in nearby areas so that they can identify local problems as well as get their innovative solutions.

Evidence of success- Every year our students submit their ideas in form of prototype at YUKTI repository.
